

It is pointed out that the now submitted listing differs from the originally submitted listing in the correction of clear errors at amino acid positions 18 and 104 of original sequence 1 and in that three letter codes have been used in place of one letter codes to identify the amino acids in sequences 2-4. These corrections are made in response to the Notice.

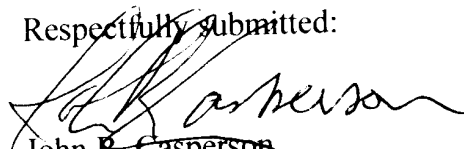

Entry of the amendment and reconsideration and withdrawal of the requirement is requested.

Please mail correspondence to:

John R. Casperson
